

The Garden Awakening

Designs to nurture our land and ourselves

By Mary Reynolds

Keynote

Chelsea Gold Award winning garden designer Mary Reynolds shows you how to design a garden that works in harmony with the land.

Description

The Garden Awakening is a garden design book with a difference. Mary looks at land the way a parent looks at a child – as a gift and a responsibility. Learn how to design and nurture a beautiful, vibrant and magical space; bring the energy and atmosphere of wild places into your garden; incorporate sustainable living, especially growing your own food, all in harmony with nature's own intentions. You will never look at your garden in the same way again.

Audience

This book is perfect for people who are interested in garden design, permaculture and forest gardening, and students of landscape and garden design.
