

## The Garden Awakening

### Designs to nurture our land and ourselves

By Mary Reynolds

#### Keynote

Chelsea Gold Award winning garden designer Mary Reynolds shows you how to design a garden that works in harmony with the land.

#### Description

*The Garden Awakening* is a garden design book with a twist. Mary looks at land the way a parent looks at a child – as a gift and a responsibility. Learn how to design and nurture a spiritual, vibrant and magical space; bring the energy and atmosphere of wild places into your garden; incorporate sustainable living, especially growing your own food, all in harmony with nature's own intentions. You will never look at your garden the same way again.

#### Audience

This book is perfect for people who are interested in garden design, permaculture and forest gardening, and students of landscape and garden design.
